

Revolutionize Your Hiring with Vervoe's AI Chatbot

Imagine a hiring process that's faster, smarter, and more engaging—one that delights candidates and makes your life easier. With Vervoe's AI-powered chatbot, you can transform how you connect with talent. Automate pre-screening, deliver human-like conversations, and focus on hiring the right person.

Why Vervoe's Chatbot?

Human-Like Conversations That Wow Candidates

Powered by advanced NLP, Vervoe's chatbot engages candidates with natural, intuitive conversations. It's like having a personalized recruiter available 24/7, ready to make every candidate feel valued.

Insights You Can Act On

Gain powerful insights with data collected during every interaction. Understand your candidates better, refine your hiring process, and make data-driven decisions with confidence.

A Personalized Experience for Every Employer

Vervoe's chatbot adapts to your unique hiring needs, from branded avatars to tailored tone and messaging. It's not just a tool—it's a reflection of your brand.

Effortless ATS Integration (On Request)

Seamlessly connect with your ATS, including Workday, Greenhouse, and Lever, to keep your workflows running like clockwork. Move candidates from chat to assessment with zero friction.

Lydia from Vervoe

Hi Marie!

I'm Lydia from Vervoe. Thank you for your interest in **Events and Partnership Lead** position at **Workday**. To assess your skills for this role, we request that you complete an online assessment.

This online assessment includes screening and job-related questions that may be answered in a variety of ways (e.g., video, audio, text). It's an opportunity to demonstrate how you would handle real-world scenarios in this role. Feel free to complete this interview at home at a time that works for you.

We look forward to seeing your answers!

Some of my questions may require audio or video responses. Let's make sure your device is ready.
